

Juqi Headhunter (Hangzhou Juqi Technology Co., Ltd.) was founded in 2014. The founder, Dr. Musk Huang, has rich working experience in government, universities and enterprises, as well as entrepreneurial experience in five countries. The original intention of the enterprise stems from the international cooperation between the Chinese and Italian governments since 2005. International cooperation has improved the strategic awareness and headhunting practical ability of the founding team, and has founded a number of human resources companies.

The competition between enterprises is ultimately the competition for talents. The purpose of Quqi headhunters is to serve China's excellent local enterprises and the world's top 500 enterprises. The business scope covers Shanghai, Beijing, Guangzhou, Shenzhen, Xiamen, Changsha and other cities, and has opened offices in the United States, Britain, Australia, South Korea, Japan, Italy and other countries.

As a professional headhunting company for global elite talents and famous enterprises, we take the spirit of honesty, pragmatism and focus as our foundation, and in strict accordance with international practices and market rules, we have successfully recommended a large number of excellent talents for our customers, and also obtained better career development opportunities for our talents. We will provide more thoughtful and excellent services with specialized segmentation solutions and solutions for enterprises and industries with different styles.
